

Video Services

Videoconferencing Suites

The best way to have a video conference is through one of our HD Conferencing Suites. Conveniently located in our central offices or available worldwide through one of our partners.

Video Streaming

We offer Video Streaming Kits that can be shipped anywhere in the world. Remotely attend depositions, mediations, arbitrations and meetings. Features include an instant messenger function that allows you pass notes to questioning attorneys.

Video Text Synchronization

McCorkle offers transcripts that synchronize with video. With this technology you can click on a location within a transcript and the video will jump to the matching footage, allowing you to create impeachment clips or easily follow along with a difficult witness.

Court Reporting

Our highly skilled Realtime reporters allow you to follow along with a live feed that displays what the reporter is typing. If there is anything you would like to double check, just scroll back up to confirm the testimony in question.

Take advantage of our remote interactive streaming when using a McCorkle court reporter or videographer. As a bonus to our services, there is no charge for use of our video conference rooms.

LEADERS IN COURT REPORTING & LEGAL TECHNOLOGY

Courtroom Technology Changes. Our Commitment to Clients Does Not.

Touchscreen Monitors

Take control over the courtroom with our large touchscreen presentation system. It has the perfect blend of an intuitive interface and user-friendly tools that allow you to state your case with a new level of depth and interactivity. Having your preloaded videos, images, and other electronic exhibits at your fingertips allows you engage the courtroom and captivate your audience like never before.

CLE Courses

McCorkle offers quarterly CLE Courses on a variety of topics. Upon request we will bring any of our classes to your firm so your entire team can take advantage.

Electronic Exhibits

Deliver your case while seamlessly transitioning between exhibits during depositions and at trial. Naturally control the flow of interactivity with any of our touchscreen presentation systems paired with electronic exhibits.

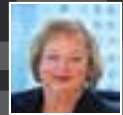

- Show exhibits in High Definition.
- Use interactive features to focus everyone on the same portion of your exhibit instantly.
- Eliminate printing, shipping costs, and delays.
- Easily include different types of media such as stills, videos, and animations.
- Use in conjunction with physical evidence or printed material to strengthen your case.
- We offer assistance in designing professional exhibits of all types and creating custom presentations specific to your needs.
